Karachi, Pakistan • +92 344 2708056 • sameerkhayrani@gmail.com

PROFESSIONAL SUMMARY

Award-winning customer operations professional combining revenue recovery, customer relations, service quality and practical business improvement. Sole recovery specialist at Get Licensed, with **£270,000 personally recovered** and return-to-course conversion increased from **30% to 46%**. Leadership experience includes managing 28 teachers, mentoring 30+ support agents, coordinating scheduling/training/performance activity, and building team-used automation, forecasting and operational QA solutions.

PROFESSIONAL EXPERIENCE

Get Licensed Jan 2025 - Present

Recovery Specialist

Star Performer of the Year 2025 | Recognised in the first year of employment

- **Sole recovery ownership:** Manage approximately 1,500 learner follow-ups per month across a multi-month caseload, resolving barriers to course participation and re-engagement.
- **Commercial recovery:** Personally recovered £270,000 since January 2025 - £130,000 in 2025 and £140,000 in 2026 YTD (as of September), with 2026 YTD already £10,000 above the 2025 full-year result.
- **Conversion improvement:** Raised learner return-to-course conversion from 30% on joining to 41% in 2025 and 46% in 2026 YTD - an improvement of 16 percentage points.
- **Escalations & revenue protection:** Resolve management-escalated complaints and Stripe payment disputes, investigating cases and coordinating corrective action across customer-facing, operational and technical teams.
- **Customer-service support:** Coach new Customer Service colleagues on learner communication, case handling and internal processes.

SELECTED AUTOMATION & PROCESS IMPROVEMENTS

- **Predictive recovery funnel:** Independently designed and automated a month-on-month recovery funnel using AI-assisted tools to predict recoverable revenue and show where and why learners were becoming stuck in the recovery journey.
- **Recovery forecasting dashboard:** Built a Google Apps Script dashboard to forecast recoverable revenue and learner volumes, analyse stalled cases, and inform action with Marketing and Technology.
- **Multi-channel recovery automation:** Introduced automated WhatsApp, email and call follow-ups to support ongoing learner re-engagement at scale.
- **Exam-resit automation:** Built a team-used tool that reduced exam-resit administration from about 5 minutes to 30 seconds or less per learner.
- **Internal workflow tools:** Developed course-rescheduling and learner-note tools alongside reusable text snippets to streamline day-to-day case administration.
- **AI review-response automation:** Implemented AI-assisted responses to Trustpilot and Google reviews, flagging negative or actionable feedback; cut Trustpilot reply work from about 5 hours per week to about 5 minutes per day.
- **Platform evaluation:** Led operational QA of a proposed customer-service platform replacement, testing workflows and operational limitations; findings informed the joint decision with management not to proceed.
- **E-learning quality assurance:** Identified ACT e-learning defects and a course-completion control weakness affecting learners; reported findings directly to ProtectUK.

EARLIER PROFESSIONAL EXPERIENCE

Ibex Global (Walmart Account) Oct 2023 - Jan 2025

Senior Customer Support Representative

- **Service performance:** Sustained 90%+ CSAT across 1,000+ monthly customer interactions.
- **Escalation handling:** Managed technical and service escalations from investigation through resolution, applying structured issue diagnosis and customer communication.
- **People development:** Mentored 30+ support agents in customer communication, issue diagnosis and complex case resolution.
- **Team coordination:** Coordinated scheduling, training, task allocation and performance reviews, supporting delivery against customer-service targets.

AIESEC Thailand Jul 2023 - Sep 2023

Communication Trainer

- **Team leadership:** Managed 28 teachers in Trat Province.
- **Delivery coordination:** Covered scheduling, training, task allocation, performance reviews and training-delivery targets.
- **Training delivery:** Developed curriculum and delivered communication training for underserved young people through practical language activities and cross-cultural collaboration.

Freelance 2018 - 2023

Technical Consultant

- **IT consultancy:** Delivered independent IT consultancy and remote technical support for client hardware and software issues.
- **Troubleshooting:** Diagnosed hardware/software faults and guided clients through structured troubleshooting and corrective action.
